5. After launching the application, it will require you to login. Please enter your username with

"@HEALTH.UCSD.EDU" and select "Next". This will take you to a UCSD Health branded page for you to enter your password. This will be the same password you use to sign into your computer or email.

Can't access your account?	

6. Please select "Yes" to allow the organization to manage this device. UCSD Health will not be able to access

any personal data outside of the applications installed by the Company Portal application.

7. The next page will start the process of enrolling your device into Intune to access the company software. Please select the dialog "This device hasn't been set up for corporate use yet. Select this message to begin setup."
